

## PhD Students (with their current positions)

1990-1993 Philippe SOULIER, *Some problems of functional estimation in various cases of dependence. First Class Professor Univ. Paris 10.*

1991-1994 Patrick ANGO NZE, *Nonparametric estimation under mixing, Assistant professor, Lille.*

1993-1996 Ricardo RIOS, *Tests of qualitative hypotheses under weak dependence. Professor Universidad Central de Venezuela, Caracas.*

1993-1996 Caren LUDENA, *Minimax estimation for some functionals of a spectral density (with J. R. León, Caracas). Professor, Universidad Simon Bolivar, Caracas.*

1995-1997 Samir BENCHARIZ, *Long range dependence in statistics. Assistant professor le Mans.*

1995-1998 Sana LOUHICHI, *Weak and positive dependence; properties and statistical applications. Assistant professor Paris 2.*

1998-1999 Ali KHEZOUR, *Long range dependence and limit theory. Computer engineer.*

1998-2002 Clémentine PRIEUR, *Weak dependence of dynamical systems in statistics. Professor Grenoble.*

2002-2006 Nicolas RAGACHE, *Asymptotics of polls under weak dependence. Cabinet of a minister.*

2004-2007 Olivier WINTENBERGER, *Weak dependence in statistics (with J.M Bardet). Assistant professor Paris 9.*

2004-2006 Gilles TEYSSIERE, *Long range dependence in finance and statistics. Researcher, Aarhus.*

2004-2006 Stéphanie DUPOIRON, *Subsampling under weak dependence. Paris Opera.*

2006-2008 Lionel TRUQUET, *Statistics of weakly dependent processes and random fields, Assistant professor Rennes.*

2006-2010 Nathanael MAYO, *Evaluation of risks on financial markets: Estimation of correlation matrices, Cifre contract Exane-BNP-Paribas-University Paris 1.*

2009 Cai Sixiang. *Bootstrapping extreme statistics for financial applications (with J. L. Prigent).*

2010 Li Xiaoyin. *Global warming. Non stationarity of times series and space-time processes.*
